

PPM Emergency Evacuation Plan

In case of emergency, call 911

Pikes Peak Makerspace's (PPM) physical location is:

735 East Pikes Peak Avenue
Colorado Springs, CO 80903

PPM Occupant Fire Notification

Fire Escape Plan maps are posted throughout the Makerspace.

Use voice commands and flickering of lights to notify other personnel of the danger.

Smoke detectors, throughout the building, will make audible noise.

In the case of a power outage, the exits sign will illuminate.

Evacuation and Accountability

Turn off power equipment if safe to do so.

Go to the nearest marked exit to leave the building.

Go to the north side of the building, walk east to "The Wolf Den" for personnel accounting.

Provide accounting of all persons that were known to be in the building. All employees and guest must evacuate during an emergency.

Retrieve unaccounted person's contact information and try to contact them directly.

Notify emergency responders of any missing or unaccounted persons.

Await further instructions from emergency responders.

Life Safety Strategies and Procedures

If any occupant needs mobility assistance to evacuate, ask other persons to help and use rolling office chairs, or rolling tables to aid in transporting them out of the building and to the gathering location. Let 911 know of any injury or need for medical assistance. Render first aid, as needed and if trained to do so, until medical assistance arrives.
